- Q&A Discussion and Career Opportunities

GlaxoSmithKline is a leader in the pharmaceutical industry producing vaccines and medicines that treat asthma, infections, mental disorders, diabetes, and digestive conditions. They provide research for the World Health Organization's three priority diseases, HIV/AIDS, tuberculosis, and malaria. GSK has a manufacturing and packaging plant in RTP and is a large employer in the area.

Dunbar Construction Consultants partner with companies in the pharmaceutical, biotechnology, and chemical industries to resolve technical project management challenges. 30 years of experience has provided expertise in development and design, procurement of goods and services, quality/cost/schedule control, and construction management. They have worked with many companies including Novartis, Diosynth, Talecris, Wyeth, Bayer, Merck, and Novo Nordisk. DCC has also provided many NCSU students with internships.
